

Recycling Loan Fund

We have money to recycle into your **ORGANICS** business

Is your business involved in the management of food waste/residuals?

- Generation
- Collection and Hauling
- Processing/Composting Operation

If so, the Recycling Loan Fund could be one of your best renewable resources!

Administered by The Business Development Company and funded by the Massachusetts Department of Environmental Protection, the Recycling Loan Fund offers **incentive financing for organics companies with fixed rates as low as 4.0%!**

We can help you:

- obtain capital for business expansion or acquisitions
- get low-cost equipment financing with longer terms and easier payments
- take the strain off your working capital

The financing we secure typically has lower monthly costs, longer terms and a more flexible structure. Massachusetts-based food waste recyclers can receive loans up to \$250,000, and in some cases up to \$500,000, to be used for any reasonable business purpose.

We believe organics recycling and food diversion are critical to the future of Massachusetts – and we have money to put behind your efforts!

Recycling Loan Fund

More than \$5 million of flexible financing provided to Massachusetts businesses active in some form of SOLID WASTE RECYCLING

- Has growth placed a strain on your working capital?
- Would longer terms on equipment financing help lessen monthly payments and preserve valuable operating cash?
- Are you in need of capital to expand?
- Have you ever tried to raise money to buy out a shareholder or acquire a competitor?

Administered by The Business Development Company, and funded by the Massachusetts Department of Environmental Protection, the Recycling Loan Fund is an excellent way to obtain the financing you need. Loans range from \$50,000 to \$300,000, and are used to help Massachusetts businesses that are active in any aspect of recycling obtain the capital needed for any business purpose. Loans for activities involving food waste and construction and demolition debris can receive up to \$500,000 at a rate as low as 4%. We have provided financing to a composting facility, a converter of paper with recycled content, and a manufacturer of recycled-content plastic products.

We can work with your current lender to provide a total solution for you – low-cost financing with higher advance rates and longer terms with either a fixed or floating interest rate. The capital is easy to obtain, and we do all the paperwork.

Let us recycle some money into your business!
